Professional Experience

Bridgeon Solutions LLP

Dot Net Developer Intern   November 2024 – Present

Key Achievements:

- **Core Understanding of React & .NET Core**
  Developed and deployed full-stack web applications using React.js and .NET Core, delivering high-performance solutions with a seamless user experience.
- **Full-Stack Development Excellence**
  Established responsive UIs with React, Tailwind CSS, and Vite, while integrating .NET Core APIs – improving development efficiency.
- **Industry-Standard Tools & Frameworks**
  Utilized tools like Visual Studio, VS Code, Material UI, and ASP.NET Core to streamline development and improve delivery efficiency.
- **Database & Backend Integration**
  Integrated SQL Server with .NET backend using Entity Framework Core optimized data operation with efficient ORM handling and low-latency queries.

SKILLS

- ASP .NET CORE
- REACT.JS
- JAVASCRIPT
- ADO .NET
- ENTITY
- SQL SERVER

- WEB API | REST API
- JWT
- C#
- OOP
- TAILWIND CSS
- BOOTSTRAP

- REDUX TOOLKIT
- LINQ
- HTML
- CSS

PROJECTS

ADOTZEE | Online Admission Assistance Platform

Technologies: React.js, Vite, Tailwind CSS, React Router DOM

Key Contributions:

- **User-Centric Design**
  Built a responsive UI with React and Tailwind CSS, enabling intuitive navigation across courses, colleges, and addons.

- **State Management**
  Managed real-time UI updates using React state, with a scalable frontend independent of backend integration.

- **SPA Routing & Architecture**
  Utilized React Router DOM for seamless page transitions and structured SPA development with modular components.

PLASHOE | Shoe E-Commerce Web Application

Technologies: React.js, Axios, Tailwind CSS, .NET Core Web API, Entity Framework, SQL Server

Key Contributions:

- **End-to-End E-Commerce Implementation**
  Developed product catalog, cart, wishlist, and checkout features with responsive, user-centric design.

- **Administrative Dashboard**
  Created an admin panel with product and order management, including secure CRUD operations and data filtering.

- **Full-Stack Integration**
  Built RESTful APIs using .NET Core and Entity Framework, enabling smooth frontend-backend communication via Axios.

- **Database & Deployment**
  Designed SQL Server schema and integrated it using Entity Framework for efficient data handling and performance.

- **GitHub**
